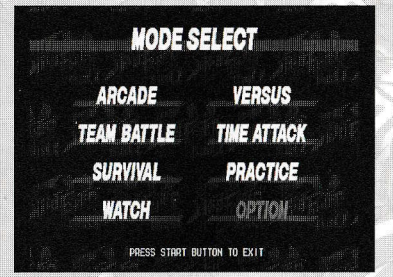
EX Modes



There are 7 modes of play and 1 setup mode for STREET FIGHTER EX PLUS α. See the following sections for more on each mode of play.

To reset your game at any time without having to reload the disc, press **L1**, **L2**, **R1**, **R2**, **Select** and the **Start** button simultaneously. You will be returned to the STREET FIGHTER EX PLUS α title screen.

ARCADE

This mode is the popular arcade mode, where you select a Street Fighter character and fight your way through other computer-controlled opponents. It is a one-player game, but a second player can join in at any time. Press the **Start** button on the opposite controller to join in. The character select screen will appear.

From the title screen, press **Start** to see the Mode Select screen. Use the Directional button to highlight this mode, then press the X button to select it.

(Note: Turning SHORTCUT to "on" in the OPTION mode bypasses the Mode Select screen. See page 10 for more)

You will then see the Character Select screen. Use the Directional button to highlight a character. Press any button other than the **Start** button or the **Select** button to select a character. Different buttons select different character colors.

If you press the **Start** button during gameplay, you will see the Pause Menu screen. You will see these options:

PAUSE MENU EXIT – Highlight and press the X button to select and return to gameplay

COMMAND LIST – Highlight and press the X button to select and view your character's list of moves

BUTTON CONFIG. – Highlight and press the X button to select, highlight the function and press the button you want to perform the function

RESET – Highlight and press the X button to select, highlight **YES**, then press the X button again to **EXIT**. To return to the Pause Menu screen, highlight NO and press the X button or simply press the △ button.

TEAM BATTLE

Team Battle lets you make up a group of 5 fighters and go up against a random group of 5 computer opponents or fight against a friend's 5 characters. Highlight this mode from the Mode Select screen and press the X button to select it. Next highlight a character and select a character and color in the same manner as ARCADE mode. You will choose 5 different characters, and will battle with these characters in the same order as you select them. To select your characters in privacy, hold the **L2** button down while selecting the character to activate the SECRET mode.

As you win, your character will advance against the computer's next character. The player who knocks out the opponent's 5 characters wins. After the battle, you will see the match recap screen.

If you press the **Start** button during gameplay, you will see the Pause Menu screen. This is the same menu as the previous ARCADE mode Pause Menu screen.

SURVIVAL

This one-player mode challenges your skill as a Street Fighter. Highlight and select a character as you would in ARCADE mode. Fight as far as you can in 1 round matches where your vitality level carries over to the next match. You are rated by TIME and HITS, which add up to your RECOVER level. Your RECOVER level determines how much vitality you will recover for the next match.

When you finish the SURVIVAL mode or you lose a round, you can enter your name if you rank. When you lose, the Continue screen appears. Highlight

CONTINUE to keep playing the SURVIVAL mode or EXIT to return to the Mode Select screen. Press the X button to make your selection.

You can view your ranking in the OPTION mode.

WATCH

Highlight and select 2 characters you want to watch fight from the Character Select screen, and the computer will fight the match to give you tips in strategy and moves. The WATCH mode will restart after each match unless you press the **Start** button to pause the match and select EXIT through the Pause Menu screen.

During the match, adjust the camera angle by pressing the X button, the ○ button, the △ button, the □ button or the **R1** button. Each time you press the **R1** button during gameplay will randomly change the camera angle.

V.S. MODE

V.S. MODE is a 2-player contest. Use the Directional button to highlight this from the Mode Select screen and press the X button to select it. You will then be presented with the Character Select screen. Select your character and character color in the same manner as the ARCADE mode. Use the Directional button to adjust your character's power prior to the match. Press the X button and the match will then begin.

(Note: If only one player controller is plugged in, the second player will be a computer player (CP). Select your computer opponent)

Press the **Start** button during the game to pause gameplay. The Pause Menu screen appears. Follow the same instructions as in the ARCADE mode.

When the match ends, you will be presented with a different menu. The following options are available:
